

# HAVEN'T THE BIG CORPORATE CEOs TAKEN ENOUGH?

The oil, drug, and insurance companies are making enormous profits. And they're using political power in Washington to influence our laws. They're changing the rules in their favor at the expense of the health and safety of all Americans.

NOW THE CORPORATE CEOs WANT TO RIG  
OUR COURTS, TOO.

Hiding behind the **U.S. CHAMBER OF COMMERCE**, the political front group they fund, the big corporations are busy undermining the civil justice system.

They want Congress to limit the right of Americans to hold them accountable – **even when they dump poisonous chemicals into our water supply, hide the deadly side effects of prescription drugs they manufacture, or keep dangerous products on the market.**

THE U.S. CHAMBER OF COMMERCE HAS  
ALREADY OVERRUN WASHINGTON WITH MONEY  
AND LOBBYISTS.

**Don't let them run off with our courts!**
